ABOUT ME

Experienced front-end developer with some back end capabilities. My stack includes working mainly with **JavaScript**, **Vue JS** and **Node JS**. Very passionate about the web development world. Looking for an interesting new challenge.

EXPERIENCE

Idomoo, Full-stack Developer

2022 - 2024

- Developing front end web apps and APIs in the video personalization domain, using mainly **Vue JS**, **JavaScript**, **SASS/CSS**, **GraphQL**, **Node JS** and **MongoDB**.
- Taking part in developing various kinds of web products such as a file management app, video creation app and more. Working in Agile methodology as a part of a web development team.
- Creating projects from scratch such as a UI library to be used in our various front-end web apps, a billing API for an app that require payment and more.

Elevate Digital Studio, Front-end Developer

2020 – 2022

- Developing tailor-made websites using **JavaScript**, **HTML** and **SASS/CSS**.
- Working closely with designers to create pixel-perfect, fully responsive websites.
- Experience working with **Vue JS**, **jQuery**, **AJAX/Fetch**, **Canvas**, **SVG**, **JSON** and more.

Aman Group, Front-end Developer for ELAL

2019 - 2020

- HTML Email development.
- Creating pop-ups, website personalization and A/B testing using **JavaScript**, **HTML** and **CSS**.
